are virtually unarmed, so what will we do? I'm dying anyway. I'm not going to die alone anymore. I'm going to die with company and you are going to be my company and I'm going to take some of you with me. So these people fought in the only way they could. They sacrifice their life and their Jesus, you-all's Jesus, said greater love has no man than this; than that he lay down his life for his friends. And white people and Israelis want to call the Palestinians fanatics when they're willing to give their life to try to bring some freedom to their people. I respect them. When you can intimidate people with a threat of death, you can control them. But when they lose their fear of dying, you cannot control them and you unleash something that you cannot control. They talk about the Afghanistan women who wear the burka and are deprived of rights.

SENATOR CUDABACK: One minute.

SENATOR CHAMBERS: I know of women in this country who are deprived of rights. They don't get the job opportunities. When they get a job they don't have job security. They're not promoted. They're called "gal". Even in this Legislature, women are not given the opportunity to seek positions of leadership with a realistic chance of getting them. That's why I got this red thing on my desk, because I stood against that. I stood against, for two years, your Governor not appointing women to boards and commissions. Then, when he finally hired Chris
